Superintendent News

by Cory Hines

Good morning Tiger nation!! I continue to be impressed with the caliber of staff and students that we have here at NISD. Over the past few weeks I have witnessed great instruction and great learning take place in our district. My task at the moment is to implement the systems that it takes to achieve sustained success. I believe this step is critical in the process to be great at all times. Certainly we will all fall short from time to time, but our mission is to be great as much as possible for our students. This comes by having thorough systems in place. Our first task is our business department. We have implemented a 3-step approval process for all spending to ensure that we are efficient with taxpayer dollars. I know the transition has come with challenges, but we have already seen a smooth streamlining effect that will free up time for our business department. Our staff has been great with the process and we can't thank them enough for being patient. I feel very blessed to work at NISD! I look forward to leading this district to its greatest accomplishments to date. I think one of the greatest roles of an educational leader is that of support. I look forward to supporting our students and staff in any capacity that I possibly can. Go Tigers!!

THINGS ARE HAPPENING AT NISD
